### **Speaker's BIO:**

Dinesh Mody has served in the medical device industry for the past 32 years, and has been instrumental in development of over 25 innovative medical products in the fields of laboratory automation, cardiac surgery and cardiac electrophysiology. He is also listed as an author on 6 U.S. patents.

He has served as a business executive and an engineer at Instrumentation Laboratory, Orion Research, C. R. Bard, Cardiac Telecom and AFX. His most recent position was President and CEO of AFX, inc. which was sold to the Guidant Corporation for over \$100MM. Currently, he serves as President of a state-of-the-art incubator, MicroCube, that he founded along with his colleagues to develop innovative cures for many diseases and clinical conditions, and create an ongoing series of standalone companies.

He holds a BTech degree from Indian Institute of Technology, Bombay, an MS from the State University of New York, Stony Brook and a master's in Management Science from the University of Massachusetts. In addition to his passion for creating new technologies and companies, he enjoys studying and teaching leadership, and mentoring entrepreneurs. He can be reached at [dinesh@microcube.org](mailto:dinesh@microcube.org)

### **Abstract:**

Dinesh's talk in “Basic leadership”, will incorporate his startup experience as a case study. Learning the story of his startups, you'll find the key of success as an entrepreneur in leadership. In addition, passion and mentorship create natural source of business opportunity and growth.
